Rift Valley Resources Limited (“**Rift Valley**” or “**Company**”) (ASX: RVY) is pleased to announce that drilling has commenced at its 100% owned Kitongo Gold Project in Tanzania.

Reverse circulation (RC) drilling aims to delineate extensions of mineralization identified from the previous campaign. (ASX release 10TH November 2014). Highlights included:

- **KTRC259 - 21m at 2.68g/t from 12m**
 - **including 12m at 4.14g/t from 12m**
 - **which includes 3m at 10.8g/t from 15m**
- **KTRC260 - 18m at 1.55g/t from 51m**

The current program is designed to test the 300 meters of strike of the southern limb immediately north of the previous Rift Valley intersections. The target is based on geochemical anomalies from RAB and air core drilling and areas of artisanal workings.

The Kitongo gold project is located 60km south of Mwanza within the Lake Victoria Goldfields of Tanzania (Figure 1).

Competent Person Statement

The information in this report that relates to Exploration Results and Mineral Resources for the Kitongo gold project is based on information compiled by Mr Paul Payne, a full time employee of Payne Geological Services and a Fellow of The Australasian Institute of Mining and Metallurgy. Mr Payne is a consultant to and a shareholder of Rift Valley Resources and has sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration and to the activity which he is undertaking to qualify as a Competent Person as defined in the 2012 Edition of the Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves. Mr Payne consents to the inclusion in the report of the matters based on his information in the form and context in which it appears.

The information in this report that relates the Exploration Results for the Kitongo gold was reported to the ASX on 10th November 2014. Rift Valley confirms that it is not aware of any new information or data that materially affects the information included in that announcement.

All information relating to Mineral Resources was prepared and disclosed under the JORC Code 2004. It has not been updated since to comply with the JORC Code 2012 on the basis that the information has not materially changed since it was last updated.
